Marc O'Polo®  
TIME

It all started in 1967 with the idea “clothing produced exclusively from natural fibres” and developed over the years into an amazing and continuous success story within the fashion industry. Within a few short years the Premium Casual Brand Marc O’Polo, which was founded in Stockholm, became an international Big Player in the Fashion business, and today it is well on the way to becoming the most sort after Premium Casual Brand in Europe.

Marc O’Polo stands for modern casual sportive fashion produced primarily from natural fibres. The style to which Marc O’Polo attributes its success can be defined by the five key words NATURAL, SIMPLICITY, QUALITY, PERSONALITY and INNOVATION. They reflect the values of the company and the collection.

Naturally a high demand for quality, innovation and personality are apparent in the watch collection. It stands out through its clear-cut, modern design and natural components. It contains many classic models with fashionable touches, which form suitable accessories for any situation or outfit. The Marc O’Polo watch collection is the perfect translation of the brand philosophy and a valuable piece of Casual Luxury on your wrist.
